DISCOVERING FUTURE LEADERS THE GLAREA PHILOSOPHY

We understand the importance of developing a full, well rounded individual. Our Sport and Art Expert Streams are integrated intelligently with the Academic curriculum to support and amplify our students' growth into capable and confident adults.

TECH IMMERSIVE EXPERIENCE USED & APPLIED IN PRACTICE

To ensure our students keep up with the innovations of tomorrow, Tech and Digital tools are utilized and mastered wherever possible throughout the Glarean experience.

SPORTS: DELIBERATE & FOCUSED PRACTICE

ACADEMIC: 360° DIGITAL

ARTS: PLANNING TO EXECUTION

A NEW KIND OF SCHOOL

FACILITY AND CONSTRUCTION

We are working hard on the \$4.7M Phase 1 renovations of our new home at Excellent Ice. Once Phase 3 is completed in 2022 we will have room for our growth to Grade 7 and have invested a total of \$13.6M into the facility. Next we break ground for the High School across the road which we estimate will be an additional \$15M investment in our community's future!

HEALTH & SAFETY

The newest modifications to the design were made after consulting with the Fraser Health Authority to specifically address ways to reduce risk wherever possible in terms of contagion.

COVID & Contagion Specific Additions and Modifications:

Increased hand washing and sanitizing stations

Reduced Class Size / Distancing

Hospital Standard Cleaning

Staff & Student Body Temperature Monitoring System

EDUCATIONAL CONTINUITY

Your child's successful education relies on a number of factors, one of the most important being consistency. Glarea's Educational Continuity plan and program ensure your child will not miss a beat, whether participating at-home or in-school.

CLASSROOMS & PROGRAMMING

- Reduced Risk Options
- Smaller Class Sizes
- Networked, VR and Interactive Learning
 - Cameras, Microphones and Screens seamlessly integrate at-home and in-school learning
 - Online classes, tutorial portals & integrated home learning resources
- Standard In-Home Packages Provided to ensure Educational Continuity
 - No more PB & J on your work laptop
 - Plug & Play: In-House I.T. Support
- Connectivity to school equipment from home

EXPERIENCE & DISCOVER

K - GRADE 4

GROWING BEYOND BOUNDARIES

ACADEMIC

The Experience & Discover Program is designed to maximize a child's exposure to a wide variety of topics and activities to help them identify their passions. We drive an interest and desire to try new things, ask questions, consider perspectives and explore the world.

SPORT

The K-4 Multi-Sport Stream focuses on physical literacy, basics of movement, and provides the opportunity for children to experience multiple athletic programs and discover what they enjoy. It is a safe place that allows them to make mistakes, reflect, try again and ultimately improve.

All K to 4 students will participate in the Multi-Sport Program.

ART

The Arts Stream focuses on exposing students to visual arts, music and the performing arts. It is a place for freedom of thought, emotion and ideas. It is an environment that cultivates creativity and imagination.

All K to 4 students will participate in the Multi-Art Program.

DEFINE & DEVELOP

GRADE 5 - 8

SUCCESS BUILT ON PRACTICE

ACADEMIC

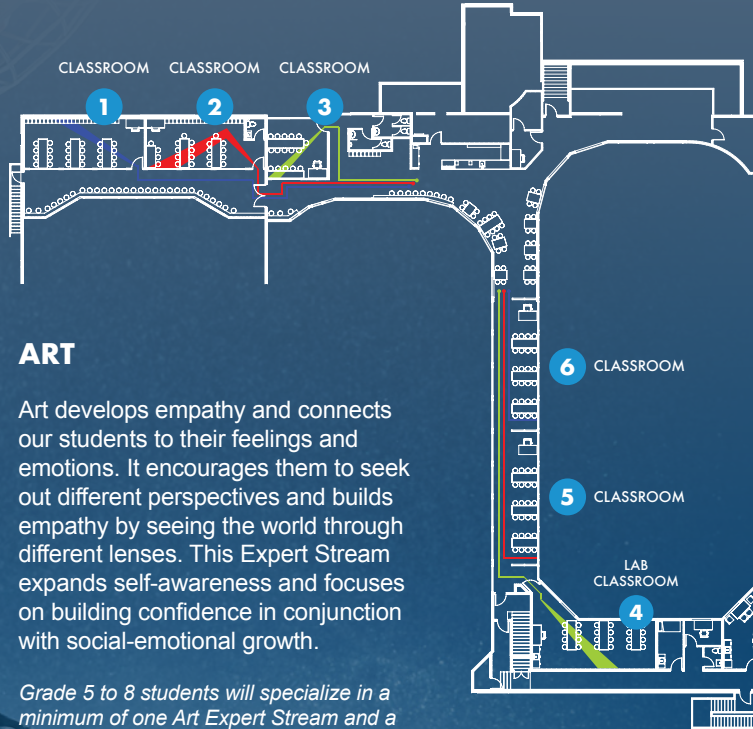

The Define & Develop program builds on Experience & Discover by identifying the key interests that sparked the imagination and excitement of each individual student. Together we then design a custom program that ensures development through deliberate practice by overlaying the core curriculum with your chosen Expert Streams. The core curriculum emphasizes collaboration, brainstorming, time management, and uses tech-integration to expand problem solving skills, innovative thinking and creativity.

SPORT

The Sport Stream focuses on teaching students that success comes from participating, deliberate practice and improving their physical literacy. Priority is placed on creating a love for the sport, celebrating individual successes and securing the fundamentals of technique within the chosen discipline.

Grade 5 to 8 students will specialize in a minimum of one Sport Expert Stream and a maximum of 2.

THE CAMPUS FLOOR PLAN (2ND FLOOR)

ART

Art develops empathy and connects our students to their feelings and emotions. It encourages them to seek out different perspectives and builds empathy by seeing the world through different lenses. This Expert Stream expands self-awareness and focuses on building confidence in conjunction with social-emotional growth.

Grade 5 to 8 students will specialize in a minimum of one Art Expert Stream and a maximum of 2.

APPLY & ELEVATE

GRADE 9 - 12

CONFIDENCE THROUGH PREPARATION

ACADEMIC

The Define & Develop program builds on Experience & Discover by identifying the key interests that sparked the imagination and excitement of each individual student. Together we then design a custom program that ensures development through deliberate practice by overlaying the core curriculum with your chosen Expert Streams. The core curriculum emphasizes collaboration, brainstorming, time management, and uses tech-integration to expand problem solving skills, innovative thinking and creativity.

SPORT

The Sport Stream focuses on teamwork, collaboration and personal achievement as students fine tune technique and specialty skill sets within their disciplines. Our experts inspire a holistic lifestyle where physical fitness and activity becomes a lifelong part of overall social-emotional wellness.

Grade 9 to 12 students will specialize in a minimum of one Sport Expert Stream and a maximum of 2.

ART

Grade 9 to 12 students will specialize in a minimum of one Art Expert Stream and a maximum of 2.
