

KIDS **GROW** HERE

Fostering a safe and supportive community that challenges and inspires the minds, hearts, and voices of our students, enabling them to define and achieve their own version of success and make positive differences in an everchanging world

The image shows the entrance of Newton's Grove school. Two students in school uniforms and backpacks are walking towards the glass doors. The building's name 'NEWTON'S GROVE' is visible above the entrance, and the address '6850 Gateway Drive' is on the glass. The entire image has an orange tint. In the bottom left corner, there are several white circles of varying sizes.

The Newton's Grove Experience

Newton's Grove is a student-focused private school for children from Junior Kindergarten to Grade Twelve.

Newton's Grove is a student-focused private school for children from Junior Kindergarten to Grade Twelve. For over 45 years, our experienced, caring, and dedicated staff has been delivering a dynamic program that gives our students the tools for success. We engage and inspire every student to be a life-long learner and creative thinker. Each student is supported by committed and expert teachers in achieving their goals through small classes and superior programming in academics, athletics, and the arts, including our signature music program. Our program is delivered in a new, state-of-the-art facility, bordering on an incredible green space. Our challenging and supportive approach to learning ensures each student develops the skills, confidence, and problem-solving ability to succeed in university, career, and life.

Approach

Our holistic approach focuses on all aspects of a student's development; the academic, the physical, the creative, and the social, with an emphasis on developing a positive attitude, self-discipline, accountability, and personal responsibility. We foster the development of academic skills and knowledge, ability in STEM, and engagement in the arts, physical activity, and athletics. In doing so, we challenge each student to strive for excellence, to think for themselves, and to find their own voice.

Academics

Our inquiry-based curriculum encourages every student to think independently, ask questions, and become a problem solver. By setting high standards and maintaining small classes, we treat each student as an individual and provide the enrichment and support needed. By melding traditional expectations of regular homework and disciplined studies with current research, we offer dynamic and engaging lessons that prepare each student for future success. It is our emphasis on all aspects of learning that ensures our programs meet and exceed the Ministry of Education standards.

Community

We know it takes a strong community to assist a child to develop, and our community is outstanding. At Newton's Grove, education is a partnership between parent and teacher, supported by a dedicated administration with students at the center. This approach ensures that students receive the time and attention they need through teamwork and cooperation. As they grow their confidence and understanding, every student is supported to speak up, take care of one another, and make a difference in society.

Helping our students grow for over 45 years

New Campus

In 2017, on our 40th anniversary, we moved into our new permanent home at 6850 Goreway Drive, in Mississauga. Each student benefits from a state-of-the-art building designed to welcome and inspire every mind. The school engages each student by welcoming them into a bright, modern, and vibrant space. The central atrium hosts living trees and allows students to plant, tend, and harvest gardens. Every classroom has a robust infrastructure to support innovative teaching. Technology is an integrated tool for learning as part of our Bring Your Own Device (BYOD) program. Two fully equipped science labs and a learning commons encourage students to develop knowledge and skills in STEM. The visual arts room, drama room, stage, and music room, which houses our instrumental music program, inspire each student to develop their talents through outstanding programming in the arts.

Our brand-new Athletic Centre, which opened in the fall of 2021, enables every student to engage in outstanding physical education, athletic training, and sports in an immense double gym, well-equipped weight room, and fitness and dance studio. Our second floor running track adds a new dimension to every student's experience. Overall, our new building has the resources, equipment, and facilities to inspire each student to strive to achieve their best in all areas. This is a place where students grow.

Green Space

Field studies, nature hikes, fitness runs, and a wide range of athletic activities are all part of our outdoor programming. Students are supervised with care as they play and learn in the park throughout the seasons. This natural, healthy environment is what each Newton's Grove student experiences every day.

OUR CAMPUS IS WRAPPED AROUND BY PAUL COFFEY PARK, GIVING ACCESS TO GREEN SPACE UNRIVALLED IN THE GTA. STUDENTS ENJOY OVER 100 ACRES OF FIELDS, PLAYGROUNDS, AND TRAILS, WITH SOFTBALL DIAMONDS, SOCCER PITCHES, TENNIS COURTS, AND EVEN A CRICKET PITCH RIGHT IN OUR BACKYARD.

Begin building their tomorrow today

The AP Program at Newton's Grove

As a university preparatory school, we enable each graduate to achieve admission to their post-secondary programs. We also ensure they are well prepared to achieve at a high level in the next step of their educational journey. We employ the Advanced Placement program, mediated by the College Board, to provide every student with the opportunity to complete university-level work in high school and be well prepared for a seamless transition to university. Many students earn university course credits and enroll directly in courses beyond the first year. Universities actively seek students who participate in AP courses because they are well-equipped to thrive in their first year of university and beyond.

OUR GRADUATING STUDENTS TYPICALLY EARN OVER 5 OFFERS OF ACCEPTANCE EACH AND COLLECTIVELY RECEIVE APPROXIMATELY \$500,000 IN SCHOLARSHIP OFFERS.

Beginning in Grade Nine at Newton's Grove, our carefully designed and enriched academic program enables each student to develop enhanced knowledge, skills, and attitudes gradually and effectively over four years. Our approach delivers a combined pre-AP/AP program, enabling every student to complete university-level work in high school with a rewarding amount of challenge and success. As a result, our students choose to write AP exams in May of their final year with a high degree of confidence that they will earn university credits.

A Newton's Grove Education

PRIMARY DIVISION

Our full-day Junior and Senior Kindergarten programs build a solid foundation for each of our youngest students. Literacy and numeracy are developed through interactive activities that encourage communication, participation, and critical thinking. French, computers, physical education, and music programs are key components beginning in Kindergarten. By Grade One and Two, focused and integrated lessons in spelling, grammar, and phonics further the development of strong and enthusiastic reading and writing. Daily learning in mathematics emphasizes a balance of mastering basic facts and developing problem solving skills. Our well-rounded and inspiring approach gives each Newton's Grove Primary student a strong academic foundation while fostering their natural curiosity and an ongoing love of learning.

JUNIOR DIVISION

Our program in Grades Four to Six enables each student to expand and build upon the foundation established in the earlier grades. Inquiry-based learning continues to foster their inherent curiosity and critical thinking. Carefully designed daily homework emphasizes quality and care of preparation as a foundation for lifelong success. Each student continues to be given more complex tasks that require independent thought and effort. Each student participates in our Science Fair, with its emphasis on creative research and application of the scientific method. Public speaking includes an opportunity to participate in an Oratorical Contest. These annual events engage each student in original and challenging work through Grade Twelve. By the end of Grade Six, each student is developing their ability to be an independent thinker with knowledge, skills, and work habits that will support success in high school, university, and beyond.

INTERMEDIATE DIVISION

Grades Seven and Eight are carefully designed transitions that effectively prepare each student for opportunities to come. The Intermediate program enables each student to successfully and happily negotiate changing social dynamics while developing the ability to assume greater responsibility. The academic program is increasingly taught by specialist teachers, experts in their subject who know and care for each student. The ability to manage an increased workload is carefully developed as each student learns how to think conceptually at a deeper level and make connections across fields of knowledge. Effective study habits and test-taking skills are developed as every student is taught how to manage their time as they maintain and rely upon their Edsby calendar. Each student in these years develops greater independence, learning how to thrive with greater freedom and increased responsibility and accountability. Our Intermediate Program ensures each student develops the discipline, conceptual thinking, and self-reliance to excel in high school.

SENIOR DIVISION

The main goal of these years is to enable each student to pursue their passion in the post-secondary program of their choice. To get there, we make increasing demands upon our students, both academically and personally. Lessons become more rigorous, with greater emphasis placed on the development of problem-solving skills and creative solutions.

In addition to a strong offering of engaging core subjects, students have the opportunity to select from many rewarding elective courses. Beginning in Grade Nine, we deliver an engaging and achievable program that leads students to be able to confidently choose to complete a number of Advanced Placement (AP) courses. Our expert Student Success advisors guide each student through an exploration of their options, ensuring each student has a clear and effective path to their desired post-secondary program. As the academic load increases, so do leadership opportunities. A student may choose to join a variety of councils and clubs and take on leadership roles. Volunteering is widely embraced, with most students accumulating far more than the mandated community service hours. Students may become Prefects in their Senior year. These opportunities and high expectations mean our graduates each routinely earn offers of acceptance into their chosen program and thrive there.

Areas of study

Science and Technology

Our new building is designed to support our commitment to STEM. Our two fully equipped science labs enable hands-on experimentation and exploration of natural phenomena. The rigorous application of the scientific method and innovative thinking are stressed in preparing each student for the future. Beginning in Grade Three, students learn by participating in our Science Fair, with winners advancing to the Peel Region Science Fair. Our program is validated by the fact that the most popular post-secondary acceptances our students earn are in applied and hard sciences. Every one of our classrooms is wired with fiber-optic cables, and monitored wi-fi is available throughout the school. Our robust computer network has the capacity to handle multiple users, supporting our teachers to integrate technology as a tool for learning in creative and innovative ways. Our IT network is designed for growth and change, ensuring we can challenge and support our students as technology continues to evolve.

Athletics

Our extensive Athletics program provides an essential balance to our rigorous academics. We are a founding member of the Private Schools Athletics Association and a member of the Small Schools Athletic Association. We are also members of the Region of Peel Secondary Schools Athletic Association (ROPSSAA) ensuring student athletes can participate at the provincial level. With over 60 varsity teams annually, we continue to produce numerous award-winners. We also engage students in many intramural programs for all ages, with an emphasis on fun, teamwork, and good sportsmanship. These programs build essential skills and ensure that everyone gets a chance to participate. In all our athletics, we stress the value of training and physical conditioning. Our program ensures every student incorporates activity into their daily lives to experience the benefits of sport and physical activity. Our new, state-of-the-art athletic complex has outstanding training facilities and equipment. Our double gym allows us to run several different programs simultaneously.

The Arts and Music

Our Arts program is designed to stimulate creativity by engaging each student to go beyond in drama, music, and visual arts. From the youngest grades, our approach to visual arts encourages every student to look at the world in new ways. Our new building facilitates this learning in our impressive art studio. Students explore form and function in different media to aid their ability to express themselves. Drama is a celebrated component in each division with four major productions per year. After countless hours in rehearsal, students enjoy putting on public performances. Our drama program allows each student the opportunity to breathe life into a character, to take artistic risks, and to build confidence through a collaborative effort. Our drama room and stage are cleverly connected to our cafeteria to support student performances. Our signature music program engages every student in developing outstanding creative and technical ability. Primary students learn to read music and are taught choral and solo singing. In Grade Five, each student enters our instrumental band program, beginning a path towards mastery of their chosen instrument. The discipline and demands of playing reinforce the benefits of hard work and practice. By the time students are Intermediates, they may be selected for our Enriched Program, and even earn a reach ahead credit in Grade Nine music. In high school, a student may join our Jazz Band, select ensembles, and take courses in Advanced Musicianship.

IT IS NO ACCIDENT THAT OUR MUSIC STUDENTS SUCCESSFULLY AUDITION FOR THE PROVINCIAL HONOUR BAND, NATIONAL YOUTH BAND OF CANADA, AND SHOWCASES AT CARNEGIE HALL AND IN EUROPE.

One of the highlights of our school year is our annual Arts and Music Night where school bands, choirs, and soloists perform at a level far beyond what one would expect from musicians so young. Students from across the grades also showcase what is often outstanding talent and creativity in visual art as part of this evening.

As a foundation, our focus on the arts stimulates creativity with engaging, inspiring, and enjoyable activities where each student feels safe to try something new and go deeper.

Meet the Newton's Grove Team

Miss Cheri Grogan, Head of School

Miss Cheri Grogan has worked in Education for over 30 years as a teacher, Assistant Head and Head of School in some of the finest schools in the GTA. More than her credentials, it is Miss Grogan's ability to inspire, support, and lead others that makes her the perfect choice for our community. Her love of our school, her warm and approachable demeanour, her strong commitment to helping our students reach their full potential, and her supportive approach to helping our team deliver the best possible educational experience is why Miss Cheri Grogan is the perfect leader for Newton's Grove School.

Mrs. Eva Diab, Principal: Senior

Mrs. Diab's educational and professional career has afforded her the opportunity to collaborate with a diverse group of educators, fortifying her goal of increasing student achievement and well-being. With a master's degree in Educational Leadership and Policy, and her PhD pursuance currently in progress within the same realm, Mrs. Diab builds strong relationships with students and within the school community. She is passionate about implementing innovative methods of curriculum delivery as well as synergistic relationships with faculty. Mrs. Diab's commitment to ensuring that our students receive an unparalleled level of education while also nurturing their social and emotional well-being perfectly aligns with Newton's Grove vision.

Mr. Mark Cassar, Principal: Elementary

Mr. Cassar's professional journey spans over 30 years in education, with 17 years as a principal, successfully leading schools in Brampton, Mississauga, and Caledon. Mr. Cassar's professional journey was punctuated by time spent at the University of Toronto, where he completed his B.A., B. Ed., and M. Ed. degrees. Mr. Cassar brings extensive experience in instructional leadership, innovative approaches, and a philosophy that is steeped in the importance of working collaboratively. His commitment to academic excellence will greatly contribute to our growth as we continue to deliver an unparalleled, leading-edge elementary school program.

Mrs. Pratiksha Mehra, Division Head: Senior

Mrs. Mehra is responsible for ensuring that our high school students have the skills, knowledge, and work habits essential for success at university. Working closely with Student Success, Mrs. Mehra oversees student programs throughout these critical years. Throughout the whole division, Mrs. Mehra supports and directs our teachers to go beyond the Ontario curriculum. Our commitment to STEAM is reflected in the quality and commitment of school leaders like Mrs. Mehra and the programs she helps deliver.

Mrs. Lisa Kazanjian, Division Head: Intermediate

After teaching at Newton's Grove School for over a decade, Mrs. Kazanjian is stepping into the role of the Intermediate Division Head. With her vast teaching experience and deep understanding of the transitional years between elementary and senior school, Mrs. Kazanjian is committed to helping students navigate this critical phase of their education. Believing in the potential of every student, Mrs. Kazanjian recognizes and values their unique talents and abilities. She firmly believes that each student possesses distinct strengths waiting to be discovered and developed. By fostering an inclusive learning environment that celebrates individuality, she encourages students to explore their interests and talents while cultivating a strong sense of self-confidence.

Mrs. Marny Burke, Division Head: Primary/Junior

Mrs. Burke oversees the growth, development and success of every student in our Primary and Junior divisions. Through her many years of innovative teaching at both the Primary and Junior levels, Mrs. Burke knows first-hand what makes for inspirational learning. She understands how important it is to engage younger students and encourage their curiosity about the world around them. By coupling the latest technology and pedagogy with tried and true practices, our students develop the skills and the growth mindset necessary for future success. Mrs. Burke, working alongside an outstanding team of teachers, ensures that each child feels safe, supported, challenged, and eager to learn.

Mrs. Emily Petroff, Admissions Coordinator

Having been a classroom teacher for over 20 years at Newton's Grove School, Mrs. Petroff is well qualified to be our Admissions Coordinator. Mrs. Petroff is outstanding in assisting prospective parents and students to learn about the school's many strengths. Her honesty and outgoing nature ensures parents are well served in learning how the school works to challenge and support every child in all areas. Mrs. Petroff is always delighted to welcome new families and ensure they are well looked after. She also knows that follow through is essential when working with every new family to make their transition to the school effective and rewarding.

Ms. Crystel Hall, Director of Marketing

Ms. Hall brings over 15 years of marketing experience in the creation and execution of innovative marketing strategies and tactical plans. Ms. Hall works closely with the Leadership Team to market and promote the exceptional programming that Newton's Grove has to offer as well as to continue to strengthen and build our highly engaged, close-knit community.

Signature Programs

Mr. John Alonso, Music Director

Mr. Alonso runs our signature music program, characterized by outstanding performances in a number of school bands. He is very excited about our new music room, one in which superior acoustics allows students to develop a more complex and nuanced sound. Our students have opportunities to develop the qualities that are the legacy of a superior program: self-discipline, leadership, and a life-long love of music. Mr. Alonso sees our students reaching for new heights as he continues to challenge them by exposing them to the power and joy of music.

Mrs. Michelle Hewitt, Drama

As an accomplished actress herself, Mrs. Hewitt inspires our students through major school productions, improv troupes, and presentations of student written and directed pieces. She sees Drama as a means to explore character, express complex emotions, and help students overcome inhibitions. Our multi-purpose performance space allows us to expand the number and quality of dramatic opportunities for our students.

Mr. Nick Zero, Athletic Director

Mr. Zero is our Athletic Director. He continues to lead the expansion of our Physical Education and Athletic Programs for all students, getting the most from our Athletic Centre and Paul Coffey Park. Mr. Zero's vision for the future is to offer elite levels of coaching while ensuring sports remain part of the fabric of our school for students of all ages and abilities.

Mr. Ryan Penner, Athletic Coordinator

Mr. Penner believes that an active growing mind is best served by an active healthy body. An accomplished athlete himself, Mr. Penner's passion for fitness is reflected in the diversity of programs he oversees. From designing interactive lessons, to overseeing a dynamic intramural program, to coordinating over sixty varsity teams, Mr. Penner seeks to engage students of all ages and athletic ability. His goal is to ensure that every student at Newton's Grove experiences the rewards and joy of physical activity and that they leave the school embracing healthy active living for life.

Ms. Nicole Hagon, Coordinator of Educational Support

Ms. Hagon brings a wealth of experience in supporting students with learning differences. Between her studies at King's College, University of London, her own personal experiences with dyslexia, her various roles and academic experiences in England and Canada, as well as her latest role as Learning Strategist, Ms. Hagon brings a unique portfolio of skills to the role of Learning Strategies Coordinator here at Newton's Grove. Ms. Hagon is the perfect fit for this role, which ensures that all our students have access to equitable opportunities and the support they need to remain consistently engaged, always learning with a sense of joy and purpose.

Mrs. Katie Wloka-Patterson, Student Success

Mrs. Wloka-Patterson brings over ten years of experience in providing exceptional student support to numerous teams, not only within Canada, but internationally. Mrs. Wloka-Patterson's global perspective is an amazing asset that fosters her love of diversity and an appreciation of its importance, particularly in educational settings. The combination of her real-world experiences and academic qualifications enables Mrs. Wloka-Patterson to create meaningful and dynamic environments for learners throughout their high school careers.

Partners

Mrs. Gabrielle Bush, Director

Building a culture of excellence is the role of the school's Director, Gabrielle Bush. For over 30 years, Mrs. Bush has been dedicated to the growth and development of Newton's Grove. As a veteran teacher, guidance counselor, department head and principal, she has invested her career in helping students achieve success. Now, as Director, Mrs. Bush guides a team of exceptional school leaders. The team shares Mrs. Bush's belief that for students to thrive, they must be fully engaged. That is why Mrs. Bush ensures that students at all levels are challenged to grow in a nurturing environment, one which encourages creativity and independent thinking while instilling the skills necessary for success.

Dr. Amr Hassanein, Partner

Dr. Hassanein is an entrepreneur and scholar with extensive experience in corporate affairs. He has a PhD in engineering and a MS in Finance from the University of Illinois. Dr. Hassanein's invaluable experience has guided us through the development of all phases of our new campus. He is committed to expanding the range of our programs and providing new opportunities and new partnerships as we continue to grow. Dr. Hassanein's vision is for Newton's Grove to be a leader and model in preparing students for the demands of the 21st century.

Mrs. Jas Mathura, Business Operations Director

Mrs. Mathura comes to Newton's Grove with an extensive financial background and many years of experience in private schools and charitable organizations. As a valued member of the leadership team, Mrs. Mathura is responsible for the day-to-day financial management of the school, and she is working closely with the development team to build upon our solid financial foundation in our new campus.

Reason

Our inquiry-based program emphasizes critical thinking, the acquisition of essential skills, and creative problem-solving. Teachers engage our students intellectually and expect them to apply their knowledge in original ways. Our students are challenged to look at the world through different lenses and to see solutions where others see problems. As a result, Newton's Grove students learn to think for themselves.

Respect

As a caring community of teachers, parents, and students, we strive to instill fairness, courtesy, and kindness into all that we do. Every member of our community is valued, and we celebrate our rich diversity in race, culture, and religion. Mutual respect is the foundation for our shared trust and understanding, and building that respect is what inspires students of Newton's Grove to be the model citizens they are.

Responsibility

Our students are given responsibility for homework, for studying, and for preparing assignments to the best of their ability. They are encouraged to take responsibility for their own issues, to speak up, and to be advocates for others. Our students learn that when they assume responsibility not only for themselves but for those around them, then they have embraced the most essential quality of leadership.

Newton's Grove is a welcoming place of learning for students from Junior Kindergarten to Grade 12, with a reputation for teaching excellence established over 40 years. Our challenging academic program is balanced by outstanding athletics and exceptional performance in the arts. Our small class size and committed teachers ensure each student is guided towards personal excellence.

Please come visit our modern, state-of-the-art facilities at 6850 Goreway Drive, nestled alongside Paul Coffey Park in Mississauga. If you wish to enroll your child or seek more information about our programs, please contact us at 416.745.1328 or email our Admissions Coordinator, Emily Petroff at epetroff@newtonsgroveschool.com.

Your child can grow here!
