

TOMORROW'S MASTER OF DIGITAL MEDIA PROGRAM

an intensive digital media summer camp for teens

July 9 – 20, 2018

Who is a TMDM student?

TMDM is for **students entering grades 9 – 12** with artistic or technical talent. We are seeking an equal mix of girls and boys. (Limited enrollment of **20 spots**).

Tuition & Fees

The cost for the entire program is **\$1100**. Applicants must write a letter of intent and include a signature from their teachers. Students are accepted on a first-come, first-served basis.

What is included?

- Mentoring from Master of Digital Media faculty
- Certificate of Completion
- Graduation event for family & friends
- Software and hardware
- TMDM t-shirt
- Lunch each day

Tomorrow's Master of Digital Media Program (TMDM) is a 2-week intensive summer camp designed for students entering grades 9 - 12 who want to explore education and career opportunities in the games and digital media industry.

TMDM gives teens an opportunity to explore digital media in ways that are not offered in the traditional education system. Teens can discover career paths and interests that will help them make informed academic and career decisions.

The program is created and taught by Master of Digital Media faculty with support from the digital media industry of the lower mainland. **Students will learn rapid prototyping and collaborative techniques and will have a playable digital media product at the end of this fun 2-week course.**

TMDM GOALS

- Engage students in project-based learning
- Encourage team-based collaboration
- Highlight education & career opportunities in Vancouver's thriving digital media industry
- Teach rapid iteration, prototyping and design essentials by drawing out individual strengths in a strong team-based environment

Check out the video from our summer camp & register for the April 19th Information Session at thecdm.ca/program/tmdm

ABOUT THE CENTRE FOR DIGITAL MEDIA

The Centre for Digital Media houses the **Master of Digital Media program**, a unique collaborative educational venture between **The University of British Columbia, Simon Fraser University, Emily Carr University of Art + Design** and **British Columbia Institute of Technology**.

The Master of Digital Media is Canada's first professional graduate program in digital media focusing on the creation of digital media solutions for real world problems. The unique curriculum meets the needs of the new and expanding digital media markets across all business verticals including healthcare, education, business and the entertainment industry.

Guided by top-level faculty and industry mentors, students work closely with clients and peers on team-based, industry supported digital media projects. This experience gives graduates the know-how and confidence to work at the highest level across all sectors as creators, producers, innovators or entrepreneurs.

What the students said ...

“ The instructors were great and very helpful and you get to learn the full pipeline of game production, plus the fundamentals of game design and story flow - if you're considering a career in the game industry.” – **C.C.**

“ This was a great environment to learn! ” – **M.J.**

“ I had an amazing time meeting new people and working with them. Everyday I'd wake up and I'd feel excited to actually go to this camp. I'd always walk home with a smile on my face because of all the things we'd done and learned.” – **A.A.**

“ Really, don't miss the chance to be part of this.” – **V.H.**

What their parents said ...

“ We would like to thank you and the team for your expertise, humour and energy in making the camp such a great experience. Our son loved the opportunity to meet other teens with the same focus. He really enjoyed the field trips to Radical and EA and the chance to use some of the programming skills he has acquired over the last couple of years. My husband and I attended the final presentation and graduation ceremony and we were very impressed with the level of expertise and professionalism of everyone involved in the program.” – **K.J.**

“ My daughter hugely enjoyed – and benefitted from – the first Boot Camp for Tomorrow's Masters of Digital Media. She and her peers were interested and highly motivated, the program was goal – as well as process-oriented, and the instruction was not just instruction, but inspiration! The best part for her was problem-solving and building a product with a group of people who were just as hard-working and committed as she is.” – **R.A.**
