Welcome to YU Summer Camp!

Youth University provides summer programs like no other. As professional educators, we appreciate the importance of nurturing independence, developing social skills, and helping children cultivate curiosity through exploration and discovery. Year-after-year children return for the adventures and sense of community that we create together.

YU mentors

Our university student staff are selected for their contagious enthusiasm, their sense of humor, their desire to make a difference, and of course their expertise. Our staff will make sure your child is having a great time. They will also bring subjects to life in ways they would never expect ... and your child will never forget.

Health and safety

We are considered to be leaders in safety management for youth and always design our programs to meet the highest standards. Our commitment to safety begins with our staff hiring and training. We are guided by, and exceed, standards set out by OPHEA, the Association for Challenge Course Technology, and the Ontario Camp Association.

"Wow" moments

We hear it again and again during our programs: "I never thought I could do this," "I really feel like I belong here," "I love learning about this." Whether swimming in the pool, learning about DNA in science or climbing our challenge course our camps are about trying new things and beginning to dream about a future built on passions and lifelong learning.

★ indicates camps where there will be a showcase for guests to attend on the Friday of that week

♀ indicates camps for girls only

Camp schedule

Week 1: July 3 to July 7			
Junior Camps Grades 2-5	Jr. Spa Science ★ Jr. Extraordinary Engineers Jr. Creative Arts Explorers Jr. Marvels of Magic Jr. Zoology ★	Jr. Stop Motion Jr. Robo Tech Jr. YU Inventors Jr. Minecraft	Senior Camps Grades 5-8 Sr. Game Designer Sr. Fashion Leader ★ Sr. Outdoor Leader Sr. Eco Artist ★ YU Leaders (Grades 8-12)
Week 2: July 10 to July 14			
Junior Camps Grades 2-5	Jr. Fashion Frenzy ★ Jr. Spa Science ★ Jr. Extraordinary Engineers Jr. Survival Skills Jr. Toy Factory	Jr. CSI -Youth University Jr. Game Design Jr. Robo Tech: Vehicle Challenge Jr. Mythbusters	Senior Camps Grades 5-8 Sr. Culinary Chemist Sr. Coding Sr. Videographer ★ Sr. Creative Artist ★
Week 3: July 17 to July 21			
Junior Camps Grades 2-5	Jr. Medieval Times Jr. Makerspace for Girls ♀ Jr. Culinary Chemistry Jr. Amazing Race: Campus Edition	Jr. Cartooning Around ★ Jr. Youth U-tube ★ Jr. Space Invaders Jr. Creative Coding Jr. Minecraft	Senior Camps Grades 5-8 Sr. Medical Investigator Sr. Robotics Engineer: Bio Bots Sr. Manga Artist ★ Sr. Engineering for Girls ♀ YU Leaders
Week 4: July 24 to July 28			
Junior Camps Grades 2-5	Jr. Creative Arts Explorers ★ Jr. Robo Tech for Girls ♀ Jr. Design Architect Jr. Marvels of Magic Jr. Stop Motion ★	Jr. Survival Skills Jr. Robo Tech: Robotic Art Jr. Zombie Biology Jr. Game Design Jr. Time Travelers	Senior Camps Grades 5-8 Sr. Sport Scientist Sr. Environmentalist Sr. Web Animator ★ Sr. Spa Scientist ★
Week 5: July 31 to August 4			
Junior Camps Grades 2-5	Jr. Spa Science ★ Jr. Game Design for Girls ♀ Jr. Star Performer ★ Jr. Youth U-tube ★ Jr. Costume Hacking ★	Jr. Zoology ★ Jr. Minecraft Jr. Epic Engineers Jr. Robo Tech: Olympics Jr. Game Show Showdown	Senior Camps Grades 5-8 Sr. Robotics Engineer: Wearables Sr. Eco Artist Sr. Toy Hacker for Girls ♀ Sr. Outdoor Leader YU Leaders
Week 6: August 8 to August 11 (short week)			
Junior Camps Grades 2-5	Jr. Fashion Frenzy ★ Jr. Mythbusters for Girls ♀ Jr. Greek Mythology Jr. Amazing Race: Campus Edition	Jr. Super Science Jr. Toy Factory ★ Jr. Robo Tech: Bio Bots Jr. YU Inventors Jr. Creative Coding	Senior Camps Grades 5-8 Sr. Game Designer Sr. Toy Hacker Sr. Fashion Leader ★ Sr. Creative Artist ★
Week 7: August 14 to August 18			
Junior Camps Grades 2-5	Jr. Extraordinary Engineers ★ Jr. Culinary Chemistry Jr. Creative Coding for Girls ♀ Jr. CSI: Youth University Jr. Special FX: Video ★	Jr. Eco Explorer Jr. Mythbusters Jr. Robo Tech: Game Bots Jr. Game Design Jr. Marvels of Magic	Senior Camps Grades 5-8 Sr. Spa Scientist ★ Sr. Robotics for Girls: Artificial Intelligence ♀ Sr. Minecraft Sr. Environmentalist
Week 8: August 21 to August 25			
Junior Camps Grades 2-5	Jr. Toy Factory for Girls ♀★ Jr. Creative Arts Explorers ★ Jr. Spy Science Jr. Marvels of Magic Jr. Toy Factory *	Jr. Maker space Jr. Epic Engineers Jr. Robo Tech: Wearables Jr. Minecraft	Senior Camps Grades 5-8 Sr. Medical Investigator Sr. Culinary Chemist Sr. Coding Sr. Videographer ★
Week 9: August 28 to September 1			
Junior Camps Grades 2-5	Jr. Star Performer ★ Jr. Backstage Pass ★ Jr. Robo Tech for Girls ♀ Jr. Amazing Race: Campus Edition	Jr. Robo Tech: Artificial Intelligence Jr. YU Inventors Jr. Survival skills	Senior Camps Grades 5-8 Sr. Outdoor Leader Sr. Eco Artist ★ Sr. Web Animator ★

Junior camps

(for kids finished grade 2-5)

Explore new topics and discover hidden talents!

Jr. Eco Explorer

Ever wonder how Earth supports more than 7 billion people? Join us as we explore ways to reduce our carbon footprint, meet our energy needs, and protect animal species all around us. Develop renewable energy, create your own recycled art projects, and learn more about the wildlife in your backyard. August 14 to August 18

Jr. Game Show Showdown

Want to find out how game shows are produced? Or who creates those crazy "Minute to Win It" challenges? In this camp you will explore, research, create, play, host and produce your very game show! Use cool software and special equipment to make your show a hit! July 31 to August 4

Jr. Marvels of Magic

Ever wonder how Harry Houdini and David Blaine became so famous? Learn the tricks of the trade as used by magicians! Perfect your card, coin and ring illusions, then dazzle your friends and family with all that you've learned. They won't believe their eyes! July 3 to July 7, July 24 to July 28, August 14 to 18, August 21 to August 25

Jr. Zombie Biology

Could zombies ever be real? Learn how quickly virus and disease can spread and how you can combat them. Explore the biology of fear and how your body and brain kick into survival mode as your team prepares for the Zombie invasion! Can you help save the human race? July 24 to July 28

Jr. Toy Factory ★

Do you like taking things apart? Step into the YU Toy factory! In this camp you'll dismantle everyday toys to rebuild, repurpose, and reimagine their possibilities! Learn about electronics, circuits, textiles, and design. Use your hands and your imagination as you create the next generation of toys. July 10 to July 14, August 8 to August 11, August 21 to August 25

Jr. Makerspace

Unleash your creative side! This Makerspace is a place to explore, try new things and experiment! Piece together those ideas you've been dreaming of but haven't started. Share your ideas with others and build off of each other's creativity. Go beyond imagining the possibilities! July 17 to July 21 ♀, August 21 to August 25

Jr. Spy Science

We are going spy versus spy as we explore the secretive world of covert operations. From Harriet the spy to James Bond join us as we learn from some of history's most infamous double agents, and investigate the science behind their gadgets. This message will self-destruct in 5...4...3...2...1... August 21 to August 25 ♀

Jr. Culinary Chemistry

Don't let that apron and puffy hat deceive you, bakers are really mad scientists! Take an in-depth look at the variety of chemical changes and reactions that take place in everyday cooking. Explore important principles of cooking from the perspective of a scientist and enjoy some tasty treats along the way. July 17 to July 21, August 14 to August 18

Jr. Mythbusters

Explore science the Mythbusters way! Bring your curiosity, questions, and ingenuity, and take part in this experiment-based camp! We will focus on proving or debunking many common myths as our YU scientists test hypotheses, use creativity, and problem-solving skills, log findings then share the results as an official YU Mythbuster! July 10 to July 14, August 8 to August 11 ♀, August 14 to August 18

Jr. Space Invaders

Do you dream of walking on the moon? As a YU space explorer you'll get one step closer! In this exciting camp you will build rockets and taste space food. Learn about space exploration, transportation, galaxies, and the universe as you prepare for the exciting mission at the end of the week! July 17 to July 21

Jr. Spa Science ★

It's pure scientific indulgence! Allow your mind, body and spirit to be pampered as you explore the science behind spa treatments and products. Learn the science of soap and how to make natural shampoo, lip balm and body spray. Launch your own spa product line with secret and exclusive mixtures from the Youth University spa science lab and factory. July 3 to July 7, July 10 to July 14, July 31 to August 4

Jr. CSI: Youth University

Designed for the serious investigator, you will learn how to separate DNA, lift fingerprints, conduct handwriting analysis, do dental printing and analyze hair under a microscope. Use these forensic science techniques to solve a fictional mystery. Come help us catch the culprit! July 10 to July 14, August 14 to August 18

Jr. Zoology ★

Do you love animals? Join us on an adventure around the world as we explore exotic animals in their habitats. Learn what it takes to recreate habitats and care for animals as you create your own public zoo, complete with information centers, attractions and animal exhibits! July 3 to July 7, July 31 to August 4

Jr. Super Science

Is it a bird? Is it a plane? No! It's super science! Join Youth University's super hero training camp as we explore the science behind some of the most legendary heroes! Learn how Storm manipulates the weather, create your own kryptonite, build a super vehicle, and be inspired to create your very own super hero too! August 8 to August 11

Jr. Creative Coding

Delve into the exciting world of coding! You'll be surprised how much we depend on coding in our everyday lives, from cell phones to videogames codes are always in the background. See what you can do as you progress through the basics and take on new challenges each day. Finish the week with a greater understanding of what goes into creating what you use each day. July 17 to July 21, August 8 to August 11, August 14 to August 18 ♀

Jr. Design Architect

Imagine, design, and build. Learn how the pros design and build structures while creating your own model dream house. Learn design and colour theory and room layout techniques then add some personal touches to make the house you designed a home. July 24 to July 28

Jr. Epic Engineers

Take your fort building skills to the next level! Learn how professionals solve structural design issues and use your new skills to complete towering design challenges. Use a variety of tools to design bridges and even cities as you put your engineering skills to the test throughout the week...are you up to the challenge? July 31 to August 4, August 21 to August 25

Jr. Extraordinary Engineers ★

Design, create blueprints, build, test, and rebuild! In this camp you'll learn about the different technologies used to make everything as you create your own experimental designs. Join the league of Extraordinary Engineers as you design and build something new each day. July 3 to July 7, July 10 to July 14, August 14 to August 18

Jr. Medieval Times

Travel back to another age and picture yourself in another time...Medieval Times! Enter through the drawbridge into the world of castles, knights, queens, and dragons. Create your own coat of arms, learn how the medieval ages have influenced modern times, and practice sword play. Put your new found knowledge into practice as you write a script, design a set and take on a character that sweeps you back in time! July 17 to July 21

Jr. Greek Mythology

Join YU on Mount Olympus and explore a mythological era. Learn about early scientific discoveries, reproduce ancient artifacts, and delve into the world of Greek mythology. End the week participating in our very own YU Olympics. Can you compete with Zeus? August 8 to August 11

Jr. Amazing Race: Campus Edition

Ready...Set...Go! Chart a path around campus and discover new and exciting places in the Amazing Race. Along the way you'll try different activities and learn about different countries and cultures. Are you up for the challenge? July 17 to July 21, August 8 to August 11, August 28 to September 1

Jr. Survival Skills

Calling all adventurers: join the YU survival skills camp and learn how to cook, build shelters, purify water and explore the natural world around Youth University. During the week campers will create their own survival training guide as they learn the skills for surviving in the wild. July 10 to July 14, July 24 to July 28, August 28 to September 1

Jr. Creative Arts Explorers ★

Come explore new ways to express your artistic side through writing, drawing, painting and more. Each day you will focus on a different style, and unlock hidden talents. Throughout the week you will explore a number of different mediums. Use one or all of them to express your inner artist. No experience necessary, just bring your creativity and sense of adventure! July 3 to July 7, July 24 to July 28, August 21 to August 25

Jr. Cartooning Around ★

Grab your sketchpad and pencils because this camp will be a whirlwind of creation. Create your own characters, learn design tips and try different animation techniques! Illustrate fun expressions and see them come alive in your very own flip book animation. Finish the week off with a jam-packed artist's portfolio! July 17 to July 21

Jr. Backstage Pass ★

What goes on behind the scenes in a theatrical production? Each show takes a skilled team to create the magical world of theatre. Join us backstage and gain hands-on experience as you learn to design and make props, assemble costumes, apply stage makeup, and even try directing. The curtain goes up on Friday at the final showcase! August 28 to September 1

Jr. Fashion Frenzy ★

Do you have a passion for fashion? Share your unique style with the world as you learn the fundamentals of fashion. Work towards designing, creating, and displaying your fashion line as you create the hottest new trends. July 10 to July 14, August 8 to August 11

Jr. Star Performer ★

Do you dream of being on the walk of fame? Do you want to be an actor on TV or in movies? This camp will get you ready for your big break in show business. Come learn acting and voice techniques as you take part in theatre games, improv, and performance theatre. Lights... camera... action! July 5 to August 4, August 28 to September 1

Jr. Costume Hacking ★

Take your Halloween costumes to the next level with this one of a kind camp! Learn how simple additions and changes can make compelling costumes! Using a variety of materials including make-up, masks, costumes, props and more, campers will create cool and unique characters. From princesses to zombies, and even zombie princesses, this camp will have it all! July 31 to August 4

Jr. Special FX: Video ★

Want to turn your home movies into Oscar worthy films? In this camp you will create your own short movie and then learn digital editing techniques. Amp up your footage by adding titles, graphics, music, special FX and voice-overs. And the Oscar for best Special FX goes to... August 14 to August 18

Jr. Game Design

There is a lot that goes into the videogames you love. Delve into the world of game design and learn the complete process! In this camp you'll learn how to control characters, objects and outcomes in your own game with a unique storyline. Then increase the difficulty level and add more features. Game on! July 10 to July 14, July 24 to July 28, July 31 to August 4 ♀, August 14 to August 18

Jr. Minecraft

Are you a builder, crafter, miner or farmer? Unleash your imagination to design a shared virtual world. Create, explore, and utilize game design strategies as you build compelling levels and work together in the Minecraft world. July 3 to July 7, July 17 to July 21, July 31 to August 4, August 25 to August 4

Jr. Stop Motion ★

Explore the world of stop motion as you and your team produce your own movies. Using a variety of props including sculpting clay, campers write, record, add music and voice-overs, and even use special FX in their features. Screen your masterpiece at the YU red-carpet event on Friday. July 3 to July 7, July 24 to July 28

Jr. Youth U-tube ★

Think you have the next biggest viral video idea? Share it with the world! Be a part of the entire production process, from scriptwriting to sound recording, playing with camera angles and digital editing. Showcase your work on Friday and watch as the number of views and likes start racking up. July 17 to July 21, July 31 to August 4

Jr. YU Inventors

Do you have the next BIG idea? Campers will explore and invent each day by engaging in investigations and experiments, and creating new projects that combine science, technology, engineering and art. This week is sure to be fun, interactive, hands-on, and creative! July 3 to July 7, August 8 to August 11, August 28 to September 21

Jr. Robo Tech

Every good robot design starts with a plan. Use virtual LEGO software to create a robot then build it in real life. Push your creation to the limits by seeing it first in a 3D world. What are you going to create? July 3 to July 7, July 24 to July 28 ♀, August 28 to September 1 ♀

Jr. Robo Tech: Olympics

Design and build your Lego EV3 robots to compete in a series of Olympic inspired challenges. From Sumo wrestling, to shotput, and even soccer, these challenges are sure to push you and your robots to the limit! May the best bot win! July 31 to August 4

Jr. Robo Tech: Robotic Art

Blend your artistic ability with technology as you create robotic artwork using Lego EV3 robotics kits! This camp will take design to a whole new level. From spiropographs to pinball prints, there is no telling how far you can take your art! July 24 to July 28

Jr. Robo Tech: Vehicle Challenge

Build it and they will come. Your team will compete to design and build the fastest, strongest, smallest, largest, lightest, heaviest, most maneuverable, most durable, and coolest LEGO EV3 robot vehicle to accomplish a variety of tasks. Are you up for the challenge? July 10 to July 14

Jr. Robo Tech: Bio Bots

Be inspired some of nature's greatest species as you design and build them with Lego EV3 kits. Whether you choose to program a snake to slither, or a skulking spider, the options are as limitless. August 7 to August 11

Jr. Robo Tech: Game Bots

What is your favorite board game, pocket game, or active game? How can you design a robot that can make it even better? Your move. August 14 to August 18

Jr. Robo Tech: Wearables

Ironman has nothing on YU. Become bionic as you design and build wearable robotics. Increase your grip strength, add an additional arm, or some all-terrain robo boots, your imagination is the limit. August 21 to August 25

Jr. Robo Tech: Artificial Intelligence

Design your very own AI robot using Lego EV3 robotics kits. In this advanced robotics camp, learn to build in programming so your robots are able to independently able to sense and react to their environment. August 28 to September 1

Jr. Time Travelers

The YU Museum of history has been ransacked! Junior time travelers will go on adventure through different periods of history, investigating some of the unique art, technology and culture of early civilizations such as ancient China and the Vikings. Build and discover a little bit of history as you work to create exhibits and reopen the museum. July 24 to July 28

Senior camps

(for youth finished grades 5–8)

Have fun while also learning about potential careers

Sr. Robotics Engineer

Each day robots help with jobs that are too challenging or too dangerous for humans to do. But there are many bright minds behind their design, engineering and programming. Delve into the world of robotics as you engineer your own using LEGO EV3 Robots. Take advanced control of your EV3 project as you combine virtual simulations with real-life challenges. July 12 to July 16, July 31 to August 4

Sr. Robotics for Girls: Artificial Intelligence

Design your very own AI robot using Lego EV3 robotics kits. In this advanced robotics camp, learn to build in programming so your robots are able to independently sense and react to their environment. August 14 to August 18 ♀

Sr. Robotics Engineer: Wearables

Ironman has nothing on YU. Become bionic as you design and build wearable robotics. Increase your grip strength, add an additional arm, or some all-terrain robo boots, your imagination is the limit. July 31 to August 4

Sr. Robotics Engineer: Bio Bots

Be inspired some of nature's greatest species as you design and build them with Lego EV3 kits. Whether you choose to program a snake to slither, or a skulking spider, the options are as limitless. August 7 to August 11

Sr. Engineering for Girls

Design, create blueprints, build, test, and rebuild! In this camp you'll learn about the different technologies used to make everything as you create your own experimental designs. Join the league of Extraordinary Engineers as you design and build something new each day. July 17 to July 21 ♀

Sr. Game Designer

There is a lot that goes into the video games you love. Delve into the world of game design and learn the complete process! In this camp you'll learn how to control characters, objects and outcomes in your own game with a unique storyline. Then increase the difficulty level and add more features. Game on! July 3 to July 7, August 8 to August 11

Sr. Web Animator★

Grab your sketchpad and ideas because this camp will be a whirlwind of creation. Create your own characters; learn design tips and try different 2D animation techniques! Illustrate movements and expressions and see your animations come alive. July 17 to July 21

Sr. Outdoor Leaders

Do you want to know the inside scoop about our low and high ropes courses? What about learning fire starting techniques or trying your hand at orienteering? As a YU Outdoor Leader, you'll learn these skills and also plan and lead a team-building event. July 3 to July 7, July 31 to August 4, August 28 to September 1

Sr. Environmentalist

Do you ever wonder how the Earth supports more than 7 billion people? Join YU and explore ways to reduce our carbon footprint, meet our energy needs and protect animal species. Come experiment with green technology and learn about what lives in your own backyard. Discover how you can make an impact by thinking outside the "blue box." July 24 to July 28, August 14 to August 18

Sr. Medical Investigator

A patient is presenting a number of symptoms and it's up to you to figure out if it could be a pandemic. Learn how medical professionals solve the mystery of diseases by piecing together signs and symptoms. Learn to read x-rays, examine bacteria under a microscope, check for vitals, and more. You've seen the symptoms—now solve the mystery! July 17 to July 21, August 21 to August 25

Sr. Culinary Chemist

Join the list of five-star Michelin chemists! Take an in-depth look at chemical changes and reactions that take place in everyday cooking. Explore some important principles of culinary science and taste your experiments to verify your hypotheses. July 10 to July 14, August 21 to August 25

Sr. Creative Artist ★

Come explore new ways for you to express your artistic side. Try your hand at writing, drawing, painting, and more! Each day you will focus on a new skill and will be encouraged to use a variety of mediums to express your inner artist. Harness and express your creativity as we build your portfolio. July 10 to July 14, August 8 to August 11

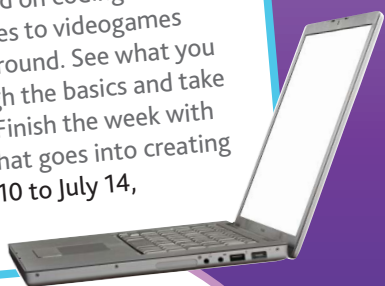

Sr. Eco Artist ★

Be inspired by nature! This eco-conscious camp encourages artists to view the natural world around them as a collection of art materials and a setting for their imagination. Join us as we explore and find treasures to create your very own gallery worthy masterpieces. July 3 to July 7, July 31 to August 4, August 28 to September 1

Sr. Coding

Delve into the exciting world of coding! You'll be surprised how much we depend on coding in our everyday lives, from cell phones to videogames. See what you can do as you progress through the basics and take on new challenges each day. Finish the week with a greater understanding of what goes into creating what you use each day. July 10 to July 14, August 21 to August 25

Sr. Videographer ★

Become a young filmmaker for a week! Take part in the entire video production process, from scriptwriting to sound recording, experimenting with camera angles, to editing. Screen your movies at the Friday showcase as we roll out the red carpet. July 10 to July 14, August 21 to August 25

Sr. Fashion Leader ★

Fuel your passion for fashion! Learn the fundamentals of fashion design as you develop your own fashion brand. You will design, create and artistically display your way into the forefront of the Fashion world. July 3 to July 7, August 8 to August 11

Sr. Spa Scientist ★

It's pure scientific indulgence! Allow your mind, body and spirit to be pampered as you explore the science behind spa treatments and products. Learn the science of soap and how to make natural shampoo, chap stick and body spray. Launch your own spa product line with secret and exclusive mixtures from the Youth University spa science lab and factory. July 24 to July 28, August 14 to August 18

Sr. Toy Hacker

Do you like taking things apart? Become a toy hacker and dismantle everyday toys to rebuild, to rebuild and make them better! Repurpose and reimagine their possibilities! Explore about circuits, textiles, and design as you reinvent these ordinary objects. Make a stuffed toy come to life with motors, lights, and programming or add solar power to a model car, the possibilities are endless! July 31 to August 4 ♀, August 8 to August 11

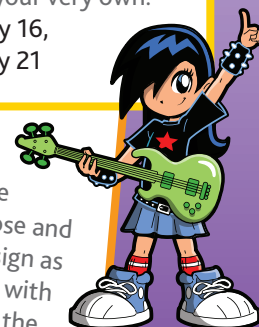

Sr. Sports Scientist

He shoots ... he scores! But how did he do it? It all boils down to sports science. Explore the wonders of the human body and the science behind today's most popular sports. Put some common sports myths to the test through exciting experiments. Bring you're A-Game. July 24 to July 28

Sr. Manga Artist ★

Put pencil to paper as you develop your own unique style of Anime or Manga drawing. Make your characters come to life as you learn to draw traditional manga expressions. Explore the history of Japanese animation and comic books then create your very own. July 12 to July 16, July 17 to July 21

YU Leaders

(for youth finished grades 8-12)

Everyone has the skills to serve as a role model, take this opportunity to start your journey to leadership success. Discover the principles of program design as well as individual and group development, while exploring your own personal leadership style and values.

You will:

- tap into your personal leadership skills
- develop effective interpersonal communication skills
- gain the confidence to overcome obstacles and accomplish goals
- receive a certificate for 40 hours of volunteer service

\$300/2-week session. Offered: July 3 to 14, July 17 to 28, July 31 to August 11, & August 14 to August 25

Camps with Youth University

Camp hours

The camp day runs from 9:00 a.m. to 4:00 p.m.
For your convenience drop off begins at 8:30 a.m.
and you may pick up by 4:30 for no additional fee.

Extended care

Extended care is available from: 7:30 to 8:30 a.m.
and from 4:30 to 5:30 p.m.

Cost: \$40/week. Pre-registration is required.

Register online

Registration will open February 28, 2017. You may
register any time up to 5 business days prior to the
start of the camp session.

Meal plan

An optional, well-balanced meal plan may
be purchased at the time of registration.
Campers are welcome to bring their own lunches
from home (about 50% of our campers do so).

Cost: \$41.45 + HST per week

Camp t-shirts

Each camper will receive one YU camp shirt to be worn
each day of camp. Additional shirts can be purchased
for \$10 during registration.

Fees and discounts

\$178 per week

\$168 per week for Brock families or when registering
for multiple weeks or multiple siblings

\$148 for short week of August 8–11 (no other discounts apply)

*Camps typically sell out quickly. Register soon to avoid disappointment.
