

BRAIN POWER

Be smarter.

We offer challenging
after-school academic-enrichment programs
for bright and gifted children from
Grades 1 - 12

Lebovic Campus - 9600 Bathurst Street, Suite #313,
Vaughan, Ontario - L6A 3Z8

Our Mission

At Brain Power, our vision is to create the ideal learning environment in which high-achieving students can thrive.

Our mission is to provide unique curriculum, world-class teaching, and experiential learning opportunities, all while exceeding current educational standards and promoting a social conscience.

Our Instructors

Our experienced instructors understand the academic and emotional needs of bright and gifted children. All of our instructors are professionals with graduate degrees - many have Ph.D. degrees - offering students brilliant mentors who are passionate about their subject matter. Of course, Brain Power teachers are not just powerful brains! They also have a playful sense of humour and a child-centred approach to teaching, and their aim is to inspire and nurture a profound love of learning.

Testimonials

I'd like to let you know how Jamin feels about your class. After picking him up yesterday, he commented that "the class is so fun!" I'm so glad that he shows interest in learning. And thank you for your creative way of teaching! We sent him to an SSAT class at another school during the summer. He didn't like it at all. I don't believe he learned much at the time. I also appreciate your quizzes each class that encourage him to memorize the words, which is an important part of learning.

Regards,
Jenny

Just wanted to let you know how much Jack enjoyed taking the grammar Mechanics of Writing course with you, Jason, in the summer. He found it 'illuminating' (his word to describe your course) and knows how helpful the knowledge gained will be going forward. Jack has learned and grown so much through his attendance in all of Brain Power's programs over the years. I'm so grateful that I've been able to do this for him.

Sincerely,
Randi Elkind

My family and I want to thank you for all your hard work this past year and for Brain Power's existence. I personally wanted to thank you and the great teachers at Brain Power who work with you. Also, you are an awesome teacher. You're such an inspiration and a role model for both my sister and me. We love your classes!

Thank you.
Patrick Cui and family

At school last week, I did a presentation for my business leadership class, and after class my teacher asked me to stay and said that I was one of the best he's ever seen. He said my tone of voice, the way I engage the audience and my overall presentation were awesome. Now that he likes my presentation skills, he's going to help me get more involved in business things in order to prepare for university, which is really exciting because he has a lot of connections and many valuable things he could teach me. I wanted to thank you for teaching me all the theory, skills, and techniques I needed to know to be able to give that impressive presentation.

Viviana

It's Jaya from your entrance exam prep class this year. I just wanted to thank you so much for all the support that you gave me, and to let you know that it all paid off! I was accepted into St. Robert's IB, which is fantastic, but I declined because I found myself with an even more appealing offer! Next year I will be attending The York School (near Yonge and St. Clair) on a \$15,000 scholarship! I couldn't have done it without you, and I hope to get the chance to be in your Senior 1 class this February! Thank you so so so much!

Thanks again,
Jaya

New Students

Brain Power is an award winning after-school academic enrichment program for high-achieving students from Grades 1-12.

To be considered for our program, students must be achieving good grades and demonstrate high academic potential.

All new students and their parent or guardian must attend a free, no-obligation assessment interview.

STEP 1 – Contact Us: Email us at info@brainpower.ca or phone us at (905) 303-5457.

STEP 2 – Arrange a free assessment interview: Schedule a free assessment interview with the administrative team at Brain Power. Visiting Brain Power and meeting our admin and teachers by scheduled appointment allows you and your child to better understand our program.

STEP 3 – Registration: If the assessment interview goes well, you will be invited to register for our programs and become part of the Brain Power learning community.
