

# KIDS in the Spotlight

**Confident leader.  
Caring friend & family member.  
Courageous creator.**

These are the roles your child  
was born to play

# Your Kids Want to Shine

Kids in the Spotlight is an evidence-based performing arts program that helps children develop self-confidence and social skills.

## THE MISSION?

Put on a musical production over the course of 5 unforgettable days with kids of all ages.

## THE PURPOSE?

Healthier kids and happier, more harmonious families.

## THE KEY?

A safe environment and a play-based, child-led, science-backed approach.

Created by counselor and Developmental Psychology MA Denise Goldbeck, Kids in the Spotlight (KITS) uses the performing arts as a vehicle for awe-inspiring development. Offered in venues all over the world, KITS allows kids to have the time of their lives while preparing them to thrive in the rest of their lives.

“My children have attended the Kids in the Spotlight program for several years and they always walk a little taller and hold their heads a little higher after each program.”

# Imagine: 5 days to play their way towards...

Confidence

Caring & courteous family relationships

Communication skills

Calmness

Put your child's development in the spotlight today.
