

It's Not Too Late

It is never too late to learn how to ride a bike or to improve your knowledge or skills. Courses only have a minimum age, not a maximum.

You don't know what you don't know!
Courses for ages 4 and up covering everything from never before ridden to complicated downtown roads.

Professional Instruction

A cyclist for over 30 years and with nearly a decade of teaching experience, Owner and Instructor Melissa has a wealth of knowledge, a passion for safety and a love of cycling to share. All staff are required to provide Vulnerable Sector checks and trained to provide the same high-level quality instruction: you can count on us!

**Safer Cycling
Calgary**

Summer Day Camp

Covering the same curriculum as the Intermediate course, we will first teach kids how to ride on the road, and then take grand adventures. Those who “graduate” will have the knowledge, skills and confidence to use their bike to ride to almost any destination: no more driving your kids to the pool or friend’s homes!

“This course changed my life.”

Safety Is In Our Name!

We take safety seriously! Learning skills and how to follow the law is important, but we make sure it’s not boring.

Intermediate

Did you know that cyclists over the age of 13 are not permitted to ride on the sidewalk in Calgary?

Bike infrastructure and multi-use pathways will never go from every home to every possible destination: you will need to ride on the road sometimes.

This is the most valuable course we offer. You will learn the rules of the road, basic bike maintenance including flat tire repair, how traffic works and handling skills before putting your knowledge into practice to learn how to ride on residential roads.

Offered in 3 formats:

- Kids only
- Family (kids plus parents)
- Adults only

FUN!

Advanced

For those who live or work in busier areas, learning how to ride on complicated roads is critical. In this course, you will build confidence as your skills progress along with the roads. Essential for anyone who would like to commute by bike, you will learn life-saving skills that you can take anywhere in the world.

First Time

You can’t ride anywhere if you can’t ride! This course will teach you the basics of balancing and pedaling a bike. No more embarrassment of having someone run behind your holding your seat or wondering about training wheels!

Our most popular course for both children and adults.
